

## Concept MAGNA GLASKERAMIK® exhibition products

MAGNA offers our customers the opportunity to participate in the concept for exhibition products and thus support the aggressive marketing of MAGNA GLASKERAMIK® products.

Placing Glaskeramik® sample products is a high investment. For this reason, we will check with you in advance whether a placement in the appropriate exhibition is worth supporting. We reserve the right to make the final decision. If you are interested, please contact our customer service.

If a placement has been decided, the following procedure applies:

- You order the exhibition products from MAGNA, have them delivered and calculated with the following discount:

Exhibition product	Exhibition discount
Glaskeramik® washbasin	50 % on dealer price list
Glaskeramik® shower screen	50 % on dealer price list
Glaskeramik® sample objects	Cut to size less 50% on the total price excluding packaging and transport (also concerns allowances)
LED-Panel	50 % on dealer price list

- After the exhibition products / samples have been set up, provide them well visible with a MAGNA Glaskeramik® sticker and attach the appropriate prospectus material.
- At the same time, please fill out and send the "Exhibition concept" form including photos to MAGNA within 3 months, otherwise we reserve the right to a recalculation.
